

## SAPSE 2010

# The 2nd IEEE International Workshop on Security Aspects of Process and Services Engineering

**Held in conjunction with COMPSAC, the IEEE Signature Conference on Computers, Software, and Applications. COMPSAC 2010 will be held in Seoul, Korea, July 19-23.**

The workshop aims to foster cooperation among software practitioners and researchers in order to exchange the latest industrial experience and research ideas on services and processes engineering focussing on security related issues. The area of processes and services engineering is an ever evolving research area offering new challenges to researchers and practitioners. Research in this area is devoted to the software engineering of service-oriented applications and the goal is to provide effective solutions to the development, deployment and management of the resulting software systems. The SAPSE workshop is intended to provide a forum for presentation and discussion of a wide range of topics related to the security aspects of software processes and services engineering. Following the discussions in SAPSE 2009 workshop, researchers and practitioners all over the world, from both academia and industry, working in the areas of process engineering, service-oriented computing, and security are invited to discuss state of the art solutions, novel issues, recent developments, applications, methodologies, techniques, experience reports, and tools for the development and use of secure service oriented systems. **Topics of interest include, but are not limited to, the following:**

- Trust, security, and privacy in service oriented systems
- Secure business process composition
- Risk management in business processes
- Service dependability, survivability, and reliability
- Design and development of secure service oriented systems
- Security specification of service oriented systems
- Certification of service oriented systems
- Verification, validation and testing of security properties of service oriented systems

### Paper Submission

Papers must be submitted electronically via Electronic Submission Page. The format of submitted papers should follow guidelines for IEEE conference proceedings, available from <http://www.computer.org/portal/web/cscps/submission>. All papers will be carefully reviewed by at least two reviewers. Papers can be submitted as regular papers (six pages) and the acceptance will depend upon reviewer feedback. All accepted papers will be published in the electronic conference proceedings by the IEEE Computer Society, indexed through INSPEC and EI Index (Elsevier's Eng. Inf. Index), and automatically included in the IEEE Digital Library. At least one of the authors of each accepted paper must register as a full participant of COMPSAC for the paper to be included in the proceedings. Each accepted paper must be presented in person by an author.

### Important Dates

**March 1, 2010:** Deadline for paper submission

**March 30, 2010:** Decision notification (electronic)

**April 30, 2010:** Camera-ready due

### Workshop Organizer

**Stelvio Cimato (Chair)**

Università degli Studi di Milano, stelvio.cimato@unimi.it

### Program Committee

**Rafael Accorsi**, University of Freiburg, Germany

**Carlo Blundo**, University of Salerno, Italy

**Chiara Braghin**, Università degli Studi di Milano, Italy

**Luca Compagna**, SAP, France

**Ernesto Damiani**, Università degli Studi di Milano, Italy

**Isao Echizen**, National Institute of Informatics, Japan

**Clemente Galdi**, University of Naples, Italy

**Sigrid Guergens**, Fraunhofer Institute, Germany

**Hejiao Huang**, Harbin Institute of Technology, China

**Frank Innerhofer-Oberperfler**, University of Innsbruck, Austria

**Dimitris Karagiannis**, University of Vienna, Austria

**Florian Kerschbaum**, SAP, Germany

**George Spanoudakis**, City University, UK
